

**CD** Series

Coffee distributor/tamper

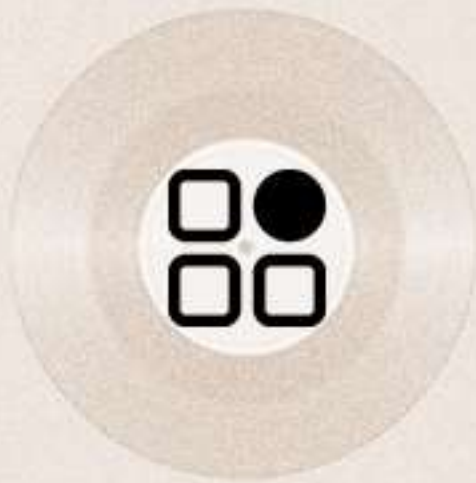

Stability & fashion

Non-slip design

A textured tamping

Multiple sizes

Selection material

## Rotating Tamping

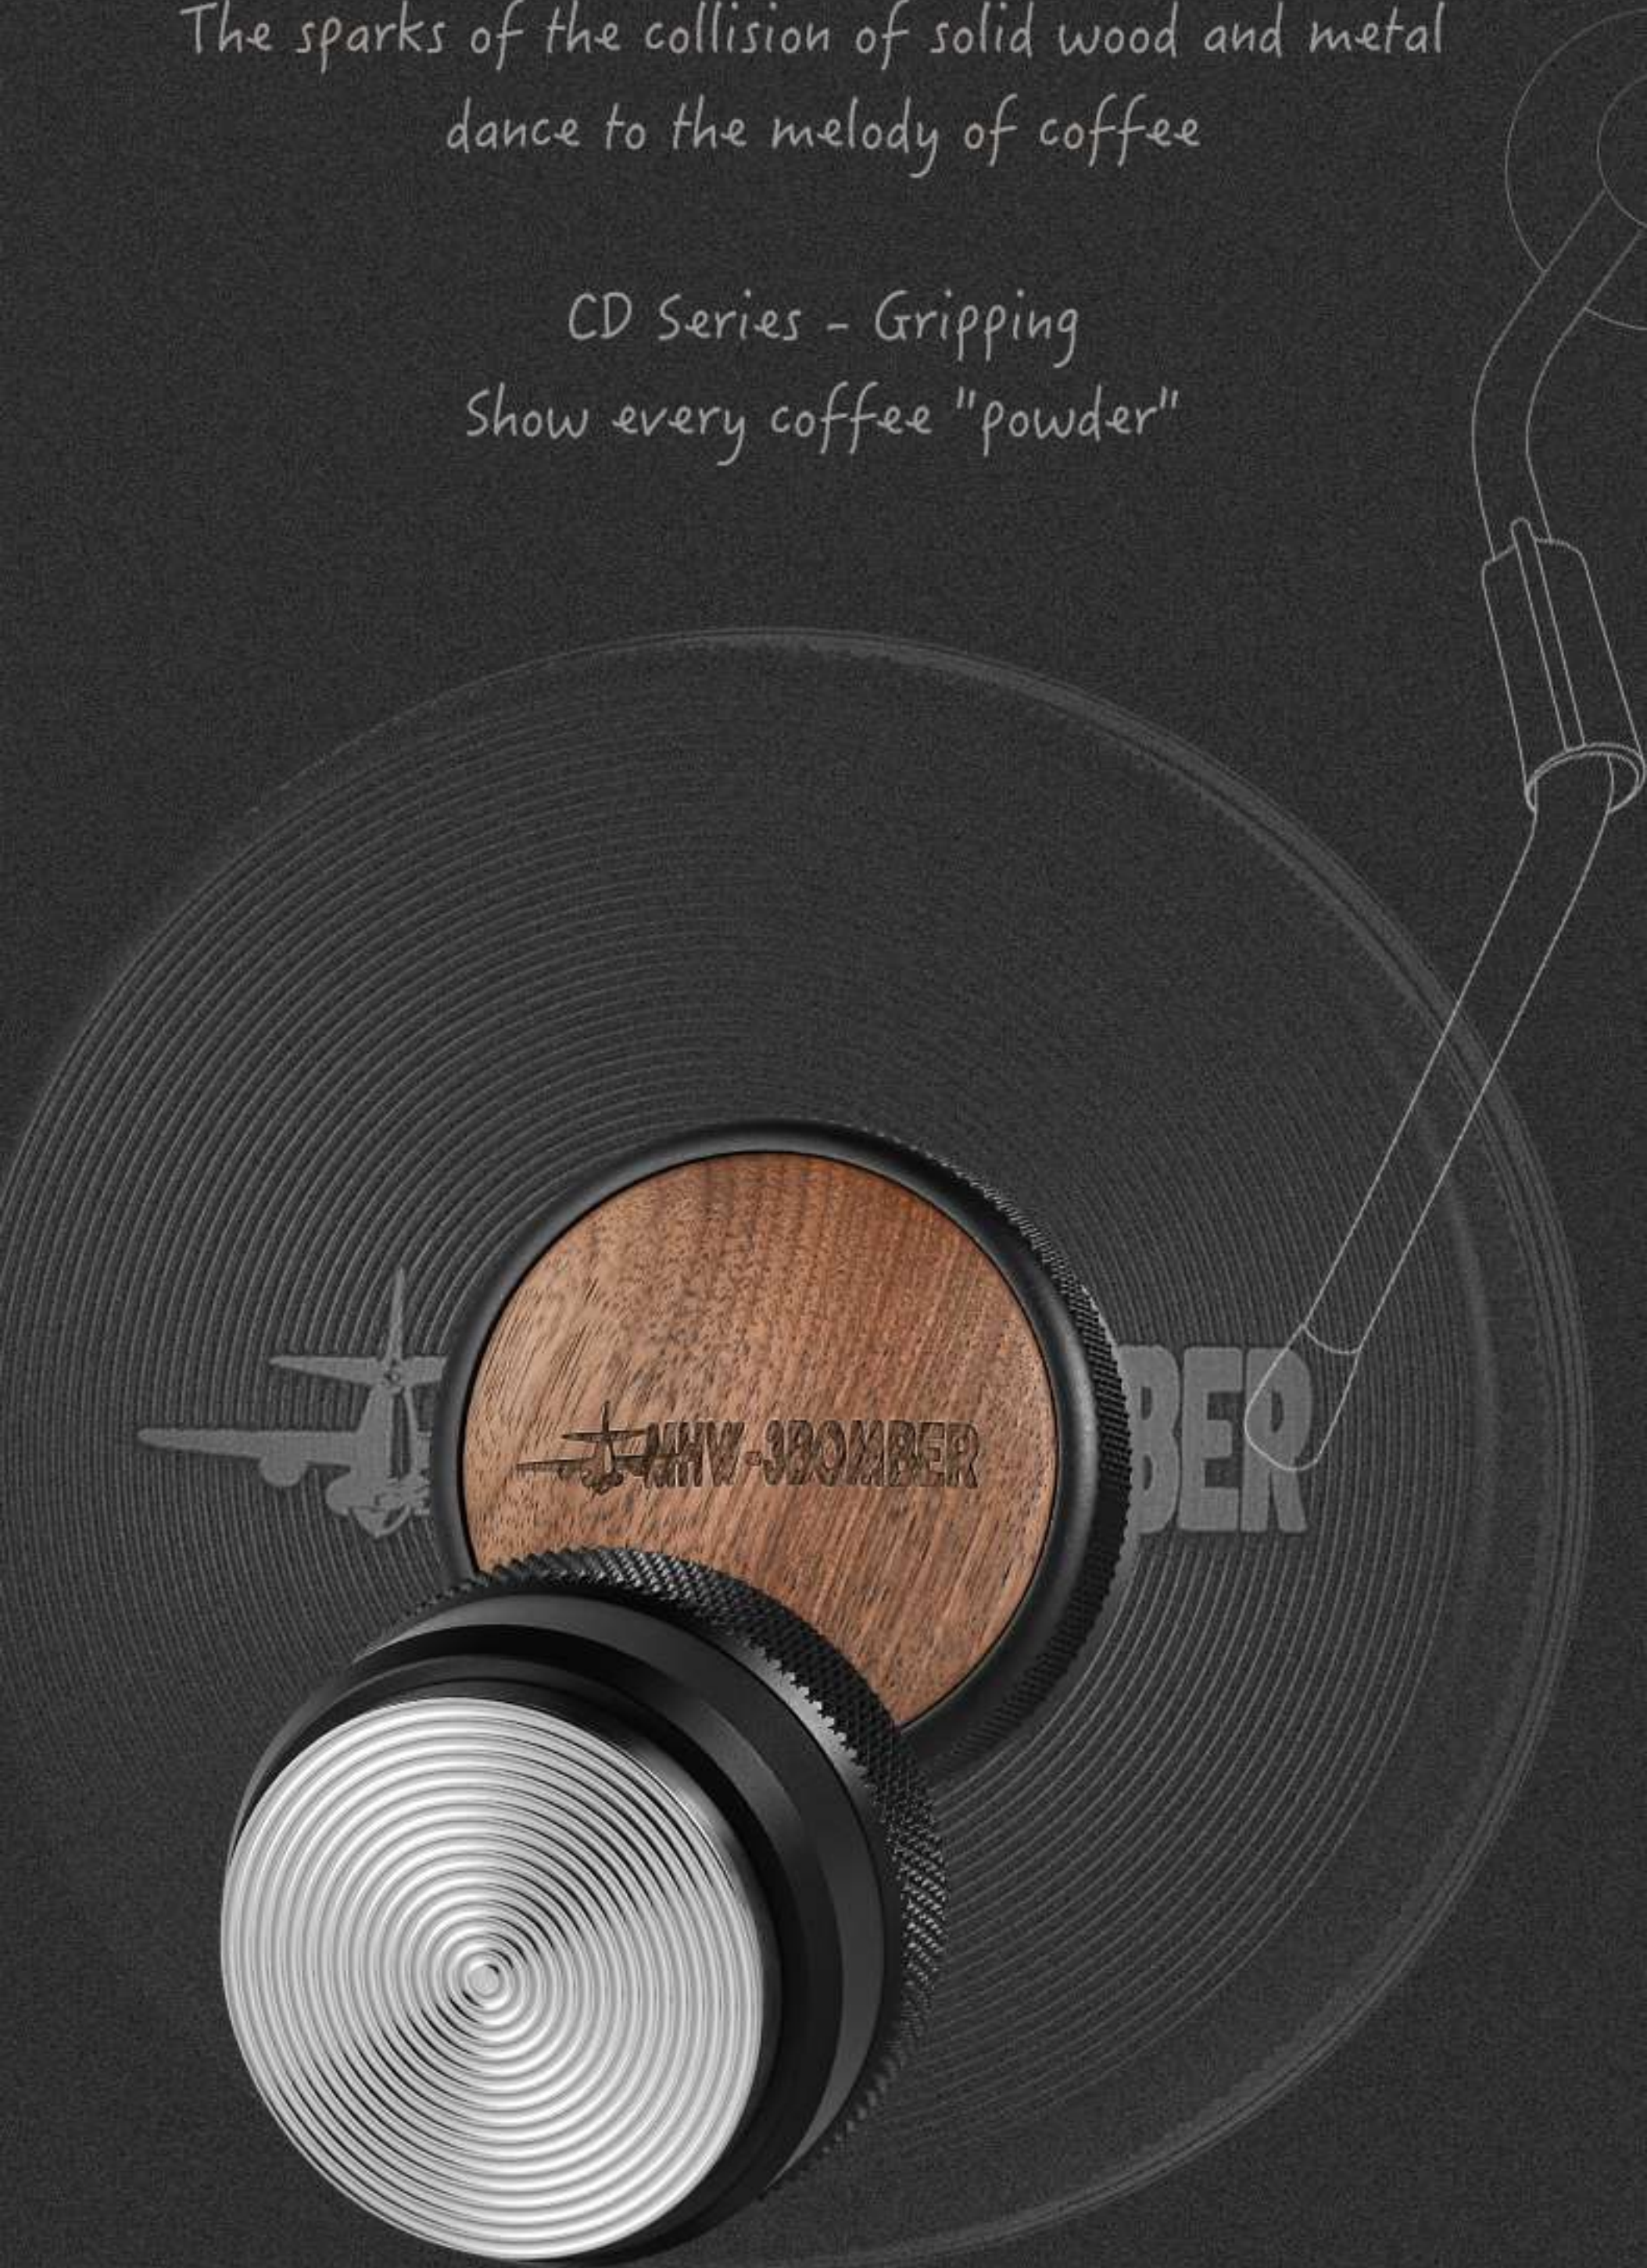

Exquisite production process

The collision of solid wood and metal

The sparks of the collision of solid wood and metal  
dance to the melody of coffee

CD Series - Gripping

Show every coffee "powder"

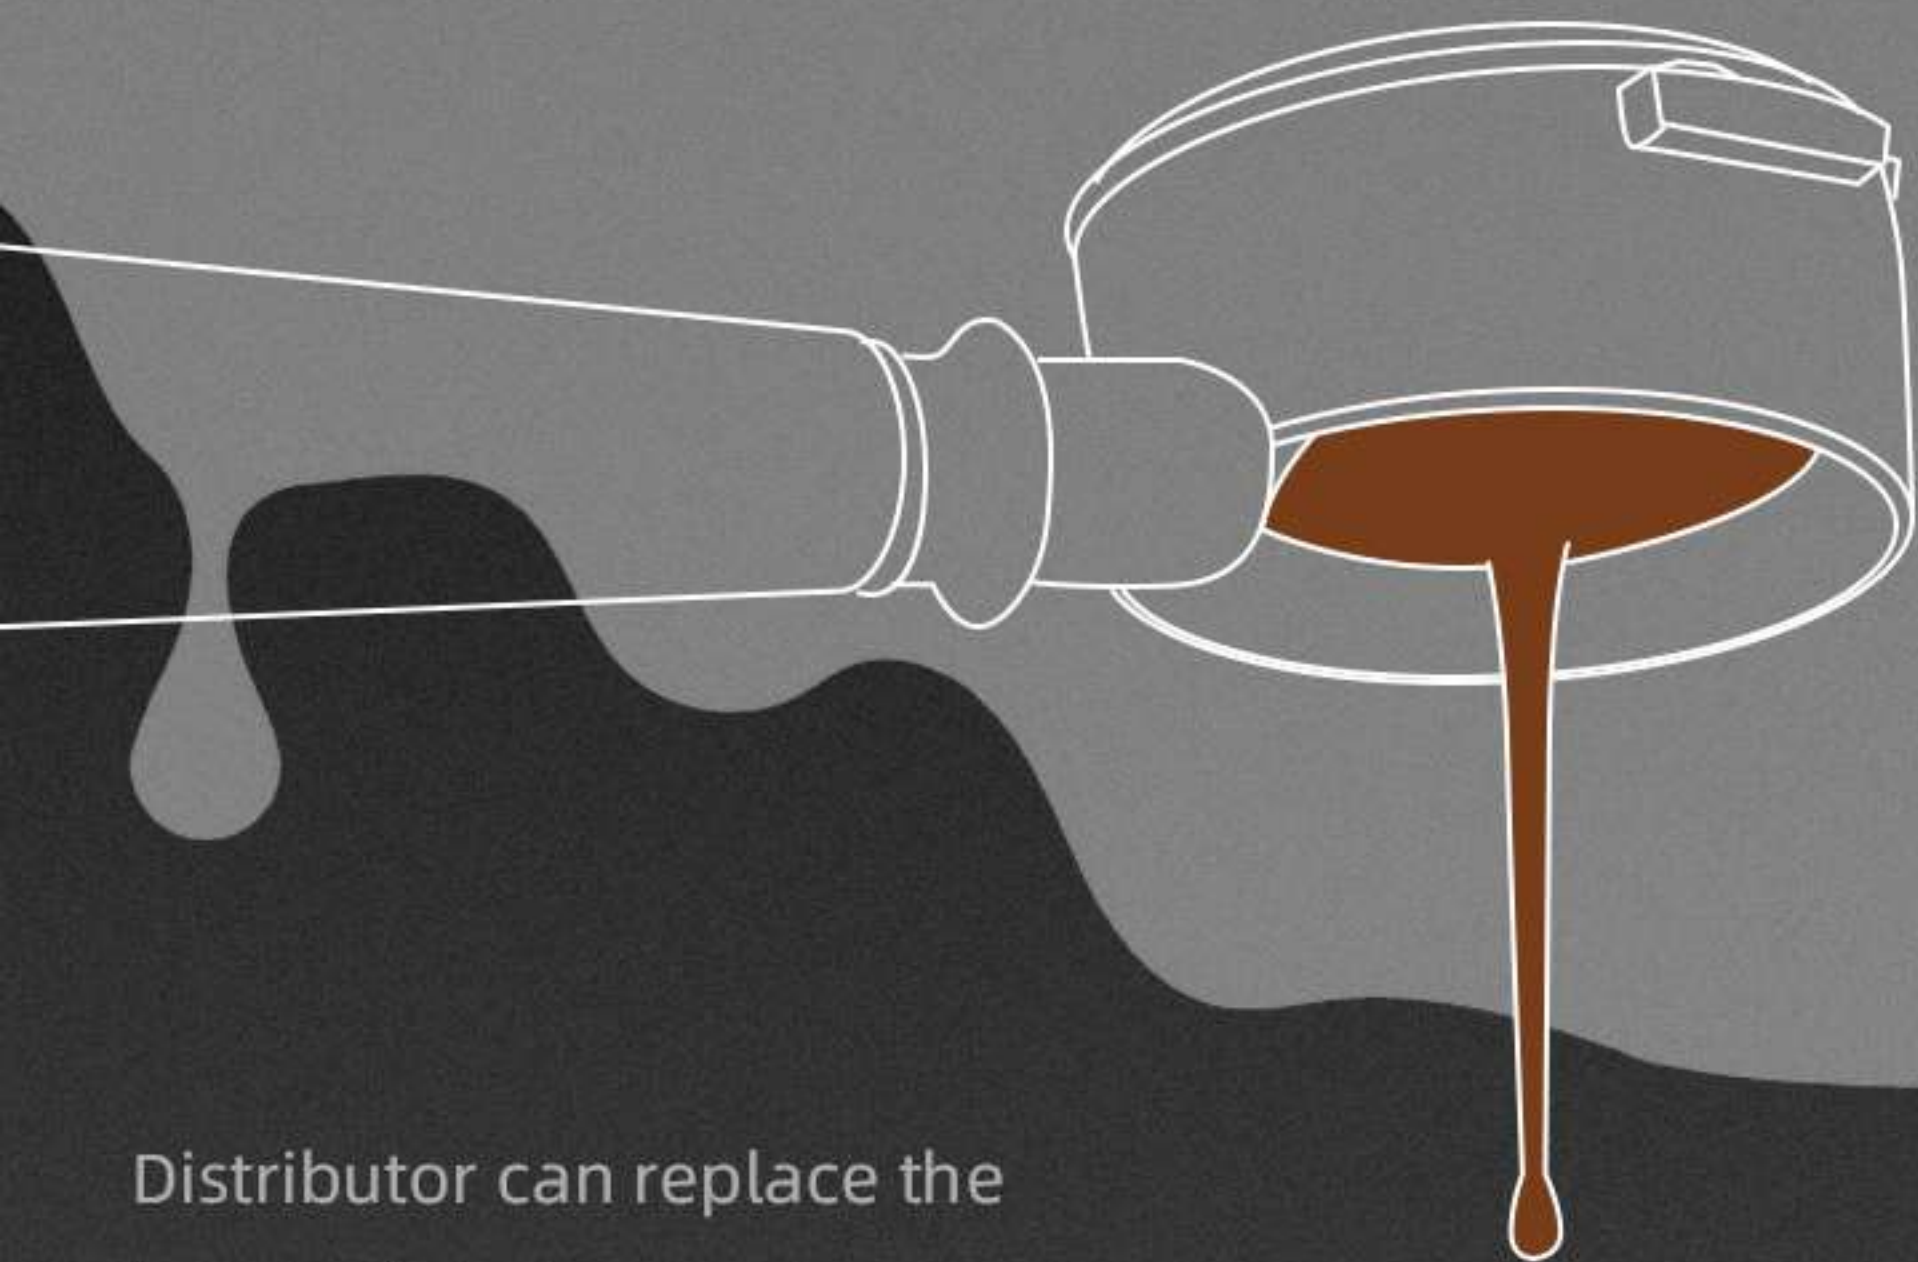

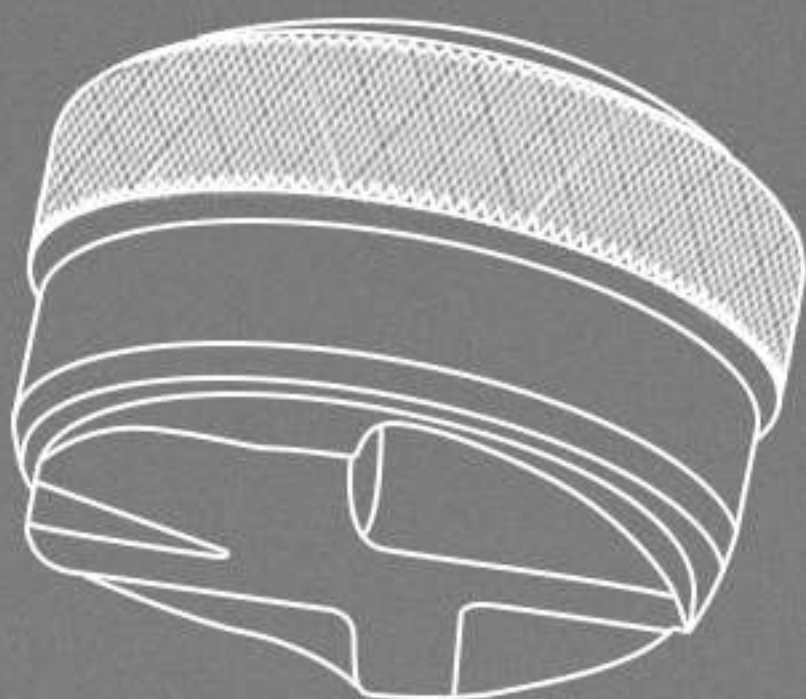

## TO GET AN ESPRESSO

Dynamic composition plays an important role

Makes coffee grounds flat, uniform and firm

Have a better extraction environment

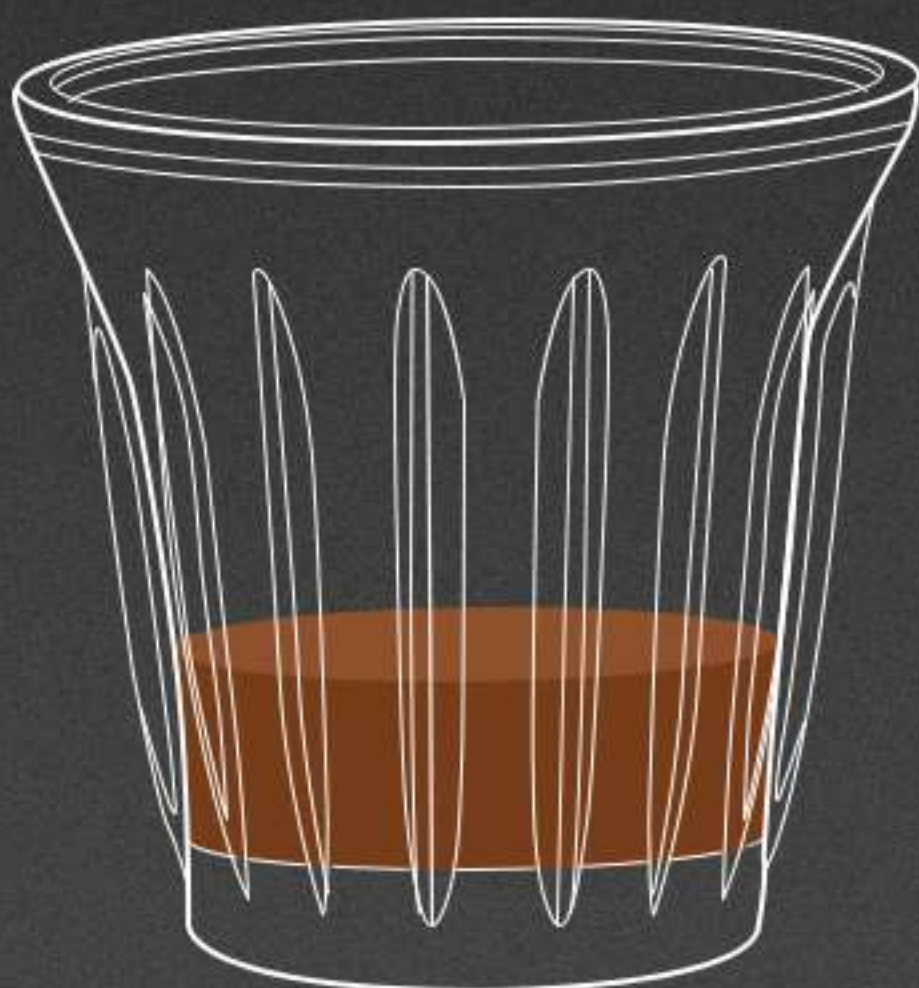

Distributor can replace the hand of The barista to touch the coffee grounds

Relatively effective in reducing channel effects

Can greatly improve the stability

Of extraction and concentration

Collocation

## Distributor/Tamper

It works better when used together

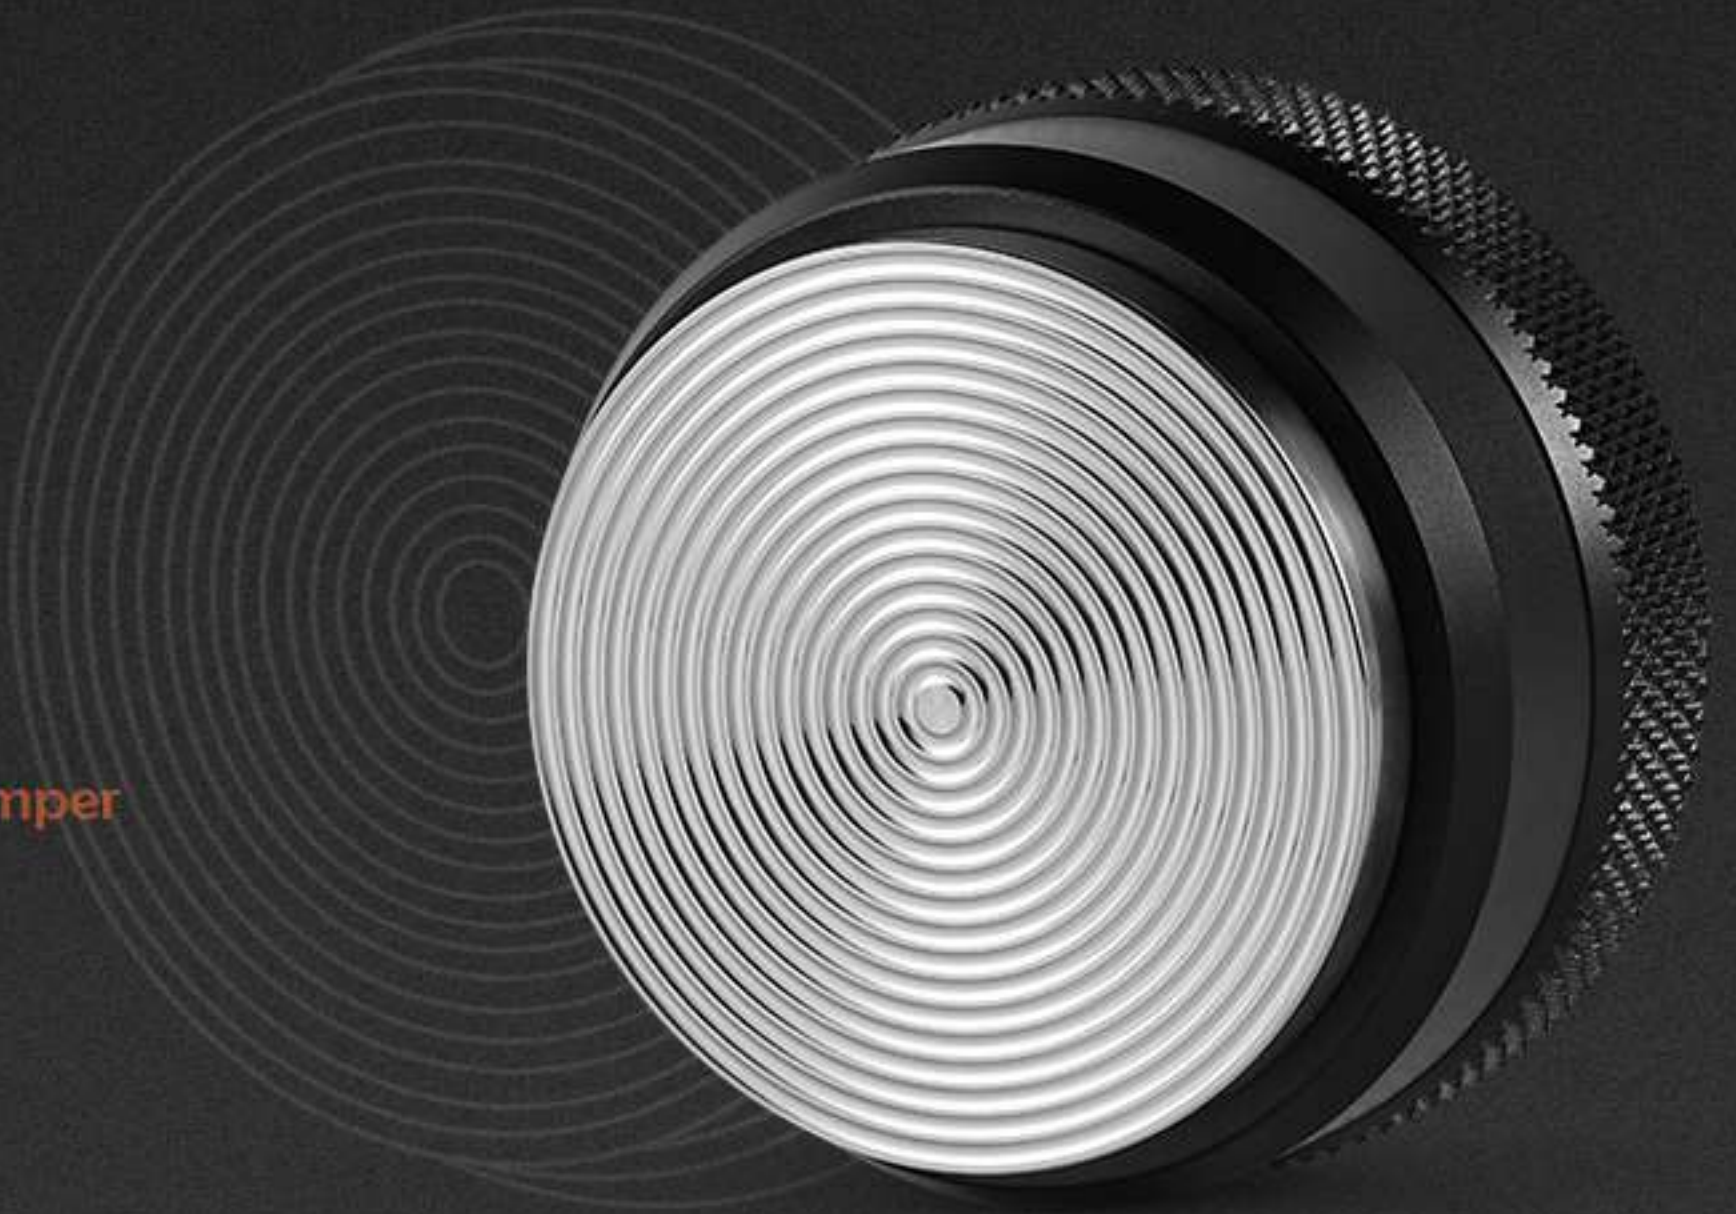

Distributor - Distribute the powder evenly

Tamper- Vertical Tamping Smooth and compact

Distributor

Tamper

## USING THE DISTRIBUTOR/TAMPER EFFECT

Distributing Before

Distributing After

Tamping After

### ABOUT DIAMETER

The diameter of a basket labeled 58mm by a coffee maker in the market is at least 58.6mm,

And after repeated testing, Choosing a distributor and tamper with a diameter of 58.35mm can make the distributing and tamping more fit and effectively reduce residual powder.

### ABOUT THE HEIGHT ADJUSTMENT OF DISTRIBUTOR

According to the amount of powder to adjust the height of the distributor, it's just enough when surface flatted.

Adjust

# Rotate to adjust height Adjust according to your needs

Adjust according to the amount of powder  
Make the tamping pressure reasonable

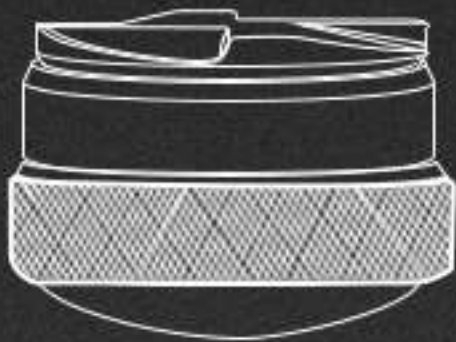

Counterclockwise adjustment

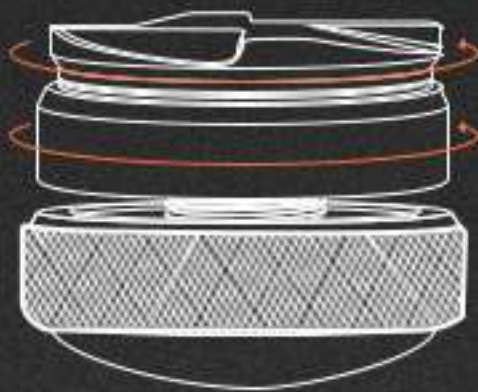

Clockwise adjustment

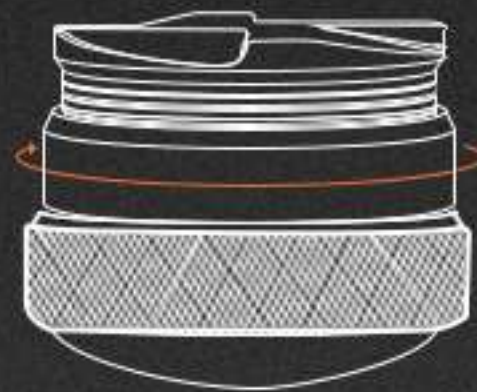

When adjusting the height  
please hold the upper lid tightly

first rotate the adjusting ring  
and the base counterclockwise  
then rotate the  
base counterclockwise

Finally rotate the  
adjusting ring clockwise  
to tighten the adjusting  
ring and the upper lid

Use

# A textured tamping Exquisite usage experience

Fit tightly into the basket  
Vertical tamping

Anti skidding 

**Knurling process crisscross  
effective anti-slip**

sturdy and durable  
refined aesthetic shape

Construction

Segmented design

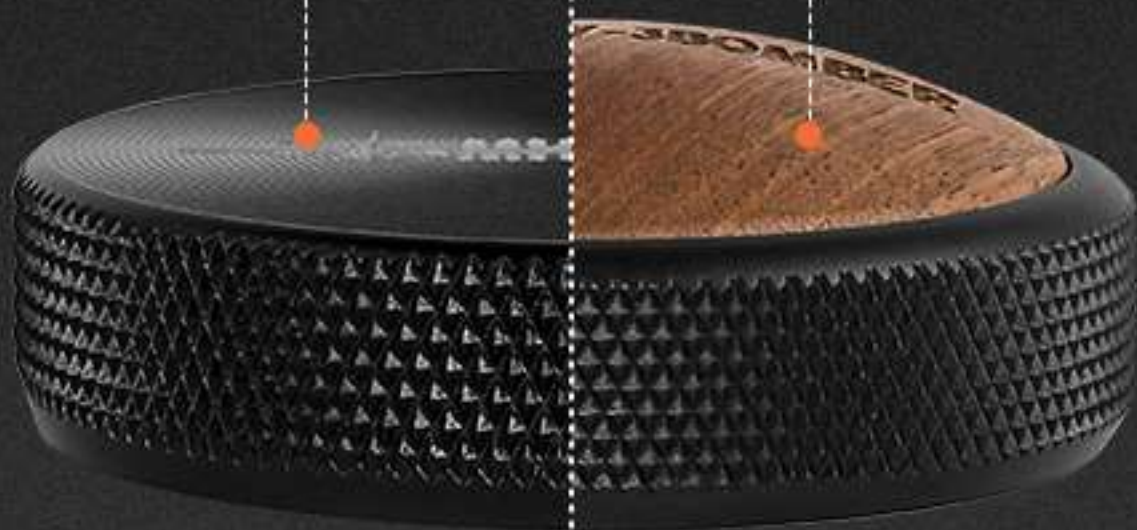

Easy to assemble and use
