For the gift of nature  
Insist on keeping the original details of the log

How to make an Espresso

Baristas use tampers everyday

But every one use different pressure

In order to reduce its bad effect

Tamper is an innovation of coffee industry

Armor Series-Constant Pressure Tamper

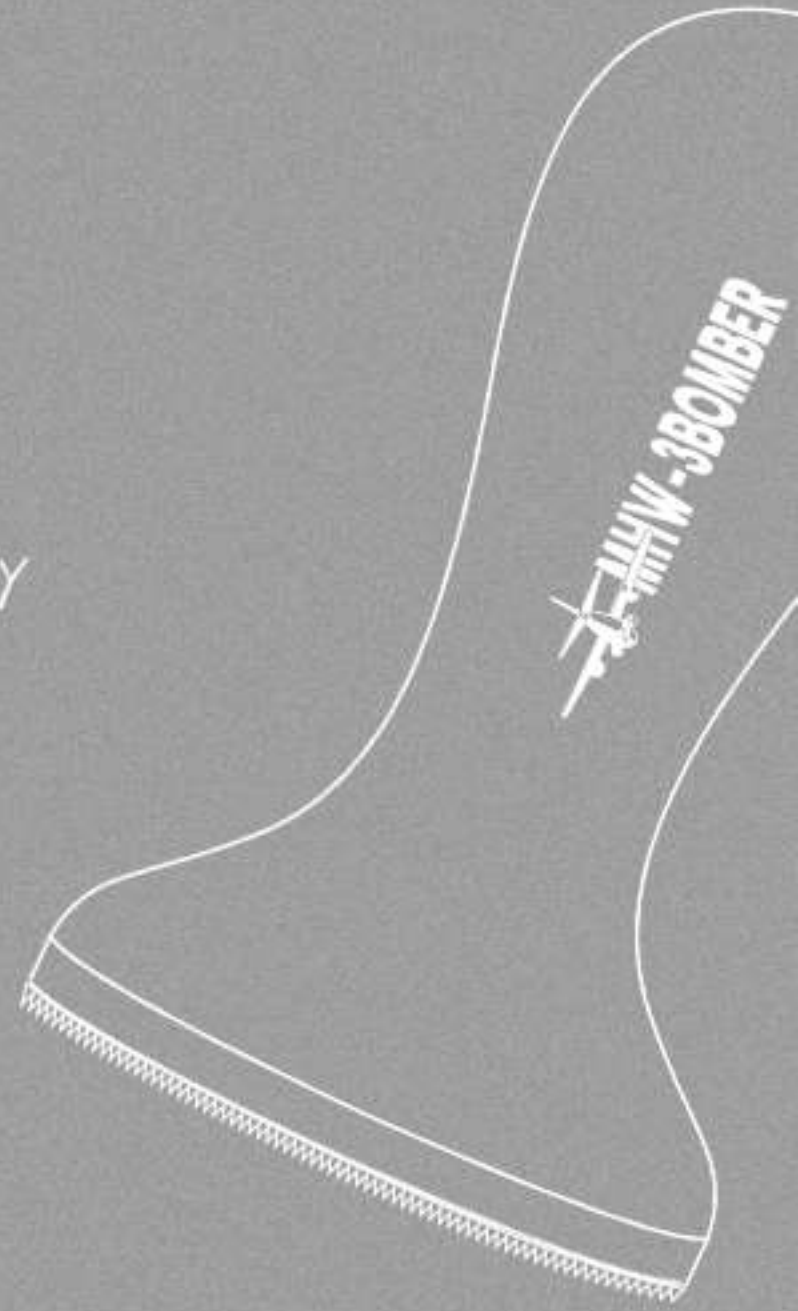

It's a breakthrough on innovation

With this tamper,

You can tamp with the same pressure

Makes a stable and good extraction

Reduce channel Effects

# Walnut Handle

Solid wood handle, gentle and stable color  
Smooth and delicate surface, comfortable grip

# Different Base

Solid wood handle, gentle and stable color  
Smooth and delicate surface, comfortable grip

## TYPE

Flat

Europe Arc

Thread

Waffle

### **\*Why we use tampers?**

Let coffee powder withstand the great pressure of the coffee machine, and avoid it being washed away and affect the extraction quality.

Flat: Evenly extraction

Europe Arc: Gathering liquid

Thread/Waffle: Increase extraction area

# 304 STAINLESS STEEL BASE
